

## Swisher Parks and Recreation Meeting

July 19, 2023

Meeting was called to order at 7:15pm by Ed Kringle

Roll Call: Ed, Jared and Mitch

Meeting Minutes were read and approved

Citizens present: none

### Business

- a. Paint Tennis Court for Pickleball – The Board thought that it was approved when we approved the purchasing of the portable nets, but either way, yes there should be lines. We decided that red lines may be best, as they would probably fade to pink rather than white like a yellow line may, causing confusion on what line is which. Motion made and carried.
- b. Additional Seating at Castek Park Playground – The Parks Board agrees that there should be some more seating options around the playground too. Jared said that he would go back to the Swisher Men's club to see what level of support they are willing to give since it was also discussed at their monthly meeting too. We picked out a recycled plastic bench looks nice and is more cost effective than some others in the catalogs.
- c. Community Forestry Grant Program – We moved that we should try to replace some of the trees that are coming down due to Emerald Ash Borer and that we would try and get a total grant of \$1,000. The city would have to match funds of \$500 to receive the grant.
- d. Update on Youth Sports Program – No update given, since Brad was absent.

Meeting was adjourned at 7:47pm
